with all modern conveniences and in Al condition. This realty is well located and suitable either for home or investment, and those seeking such will do well to examine and be present at sale.

Heavy Locomotives to Be Used in Fneight Service on the Southern

Pittsburg plant of the American Lo-comotive Company is completing for the Southern Railway Company several

comotive Company is completing for the Southern Railway Company several heavy engines for fast-freight service, and while they are not as weighty as some other engines of recent construction, they are remarkable for the fact that although of the consolidation type, the driving wheels are more than 5 feet in diameter, or 63 inches, to be exact, their boiler pressure is 200 pounds, and their cylinders are 21 inches in diameter, with 23 inches stroke. Of the total weight of each engine, which is 190,500 pounds, rest on the driving wheels making their tractive power great.

These locomotives indicate the growth of demand for fast-freight service in the South, as well as in other parts of our country.

On many railroads fast freight hear parts of our country.

On many railroads fast freight terms being made synficiently light to be hauled by them, although on some roads it is possible for a large passenger engines to pull a heavy freight train at high speeds, because of the favorable grades, but the see engines just built for the Southern are made to handle heavy trains on varying grades without the aid of helpers, which is volume to the samply powerful to secure the most good in the way of speed and pulling power from the increased size of the drivers, and it way be eveneded that it is a price to sult your own procket.

Young, but Very Active, Is the Good Town of

ZEBULON, N. C., August 1.—Zebulon is the youngest town on the Norfolk and Southern Rallway, perhaps the youngest town in the Old North State. It is needless to say it is named for Zezulon B. Vance. It lies midway, at a distance of twenty-five miles, between Ralleigh and Wilson, in Wake County. It is in one of the finest farming sections of the State. It is but a year and a half old. Last season more than 1.000.000 pounds of tobacco and 2.000 bales of cotton were marketed here, and it is expected that 2.500.000 pounds of tobacco and an increased quantity of cotton will be sold this season. Zebulon's population is about 1.000. It has twenty stores and more than 1.25 residences. The Zebulon Hoslery Milis are operated by a company, with Messies, T. J. Horton, president and manager; W. H. Edwards, Jr., secretary, and J. D. Horton, treasurer, Mr. T. J. Horton is Mayor of the town. There are two tobacco warehouses, operated by Beasley and Twiggs and Jones, Robertson and Schemblee, respectively. The Bank of Zebulon was organized about a year ago, with a capital of \$10.000. The Zebulon was organized about a year ago, with a capital of \$10.000. The Zebulon of \$50.000, has just been organized to build a one-press mill, which will handle twenty tons of seed a day.
